PROPOSAL FROM:

Astro Chemicals, Inc.

126 Memorial Drive, Springfield, MA 01104

Telephone: 413.530.6831 (Kelly cell#) email: kelly.eddy@astrochemicals.com

to furnish various bid products in accordance with specifications attached, it being further understood that the Northeast/Merrimack Valley Chemical Consortium (NEMVCC) and our Host Community reserve the right to accept or reject any bids in whole or in part, and to reject any or all bids it shall be deemed in the best interest of NEMVCC.

The Bidder acknowledges receipt of the following Addenda: #1

Signature:

Kelly Eddy

The addendum could state that if tariffs are implemented and a contract adjustment is needed, vendors must provide documentation (e.g., import/export data, supplier invoices, or government tariff schedules) to prove the actual impact. We should also clarify that only verified increases due to new tariffs—not general inflation or other factors—will be considered.

To Whom it May Concern:

In accordance with the advertisement of the Northeast/Merrimack Valley Chemical Consortium inviting proposals for furnishing Chemicals in conformity with the attached specifications, I/we hereby certify that I am/we are, the only person (s) interested in this proposal as principal(s); that it is made without collusion with any person, firm, or corporation, that an examination has been made of the specifications; and that the equipment/materials will be delivered within the time specified, at the following prices.

*Approval of a contract or other agreement will not be granted unless this certification clause is signed by the applicant.

WARRANTIES/GUARANTEES

All prospective bidders on items that carry warranties and/or guarantees must include with their sealed proposal a copy of the warranties and/or guarantees of major components as well as a copy of the warranties and/or guarantees on the items being bid/proposal if applicable.

The bidder must plan to assure the owner that the warranties or guarantees can be assigned to the owner. The owner's intent is to use the extent of the coverage in the warranties or guarantees as part of the awarding procedure.

ADDENDUM I

If tariffs are implemented and a contract adjustment is needed, vendors must provide documentation (e.g., import/export data, supplier invoices, or government tariff schedules) to prove the actual impact. Only verified increases due to new tariffs, not general inflation or other factors—will be considered.

RE: Cooperative Chemical Bid

Dear Mr. Danos,

Thank you for the opportunity to bid on the Northeast Merrimack Valley Chemical Consortium's (the "Consortium") invitation to bid Cooperative Chemical Bid due Thursday March 20th, 2025, at 1:00PM.

Arq's core business is providing high-quality activated carbon products ideally suited for the municipal water purification market. Arq has established key relationships with top accounts in this industry, anchored on our collaborative approach and world class supply chain. Arq was formed in 2015 to deploy world class technology to engineer and develop activated carbon products to purify and provide clean drinking water throughout North America. Our mission is to ensure our products allow for the treatment and purification of millions of gallons of clean drinking water each and every day, and our entire team is committed to our contribution and partnerships with our customers to meet this goal.

The CarbPure L and CarbPure T products offered in our bid are domestically sourced and manufactured Louisiana. We have included copies of the Technical Data Sheet (TDS), Safety Data Sheet (SDS), and NSF Certification, for the CarbPure L and CarbPure T products. Arq notes that powdered activated carbon for water treatment is certified under ANSI/NSF Standard 61, under which our products are certified, rather than the ANSI/NSF Standard 60 as set forth in your specifications.

Our CarbPure T product that we are offering for the Andover W.T.P. location is produced from a proprietary blend of lignite and wood based carbons at our facility in Louisiana that provide maximum performance in water treatment applications. To the extent that the Andover W.T.P. requires that powdered activated carbons must be made from bituminous coal, Arq takes exception.

The CarbPure T product will be shipped from Louisiana in dedicated full bulk truckloads via pneumatic trailers to the Andover W.T.P. Should Andover request bulk deliveries less than a full truckload, there may be additional freight costs.

The CarbPure L product will also be shipped from Louisiana in Super Sacks weighing approximately

900 pounds per bag to the Keene N.H. location. We have priced our quote based on the full 7,200 pounds being ordered at one time, which would be 8 bags.

Arq's standard lead time for delivery of powdered activated carbon to the Consortium will be within seven (7) days from the date of order confirmation. This is calculated based on our standard five (5) days to prepare/arrange the shipment and two (2) days for transit. While Arq will endeavor to ensure the Consortium receives a continued supply of powdered activated carbon in emergencies or in other critical periods, Arq takes exception to any delivery obligation requiring less than its standard lead time from the date of order confirmation.

As it relates to the Instructions to Bidders, Arq takes exception to the first Special Provision, that Consortium Members may take a five percent (5%) discount for any deliveries not made on the date and hours specified within the bid documents. Arq has an average On Time In Full (OTIF) delivery percentage of 95% and a 100% OTIF rate for the first negotiated date of delivery.

Regarding section 25.1 of the Contract Clauses, Arq takes exception to the requirement that protective liability insurance needs to be purchased, as we will be drop shipping our product and believe that protective liability insurance would not be applicable to our business. We will have ample commercial liability coverage for that work. A certificate of insurance will be provided upon request.

To the extent there may be other terms and conditions not contained within your invitation to bid which may be applicable to our supply of activated carbon, Arq's bid is subject to and conditioned upon coming to mutual agreement on those terms and conditions.

Please let me know if you have any questions or concerns regarding our submittal. We are confident that we can provide a secure and dependable supply of high-quality products and excellent customer service to the Northeast Merrimack Valley Chemical Consortium.

Best regards,

Garrett Chandler

PROPOSAL FROM:

Borden & Remington Corp.

63 Water Street

Fall River, MA 02721

Telephone: 508-675-0096 email: tresendes@boremco.com

to furnish various bid products in accordance with specifications attached, it being further understood that the Northeast/Merrimack Valley Chemical Consortium (NEMVCC) and our Host Community reserve the right to accept or reject any bids in whole or in part, and to reject any or all bids it shall be deemed in the best interest of NEMVCC.

The Bidder acknowledges receipt of the following Addenda: 1

Signature:

The addendum could state that if tariffs are implemented and a contract adjustment is needed, vendors must provide documentation (e.g., import/export data, supplier invoices, or government tariff schedules) to prove the actual impact. We should also clarify that only verified increases due to new tariffs—not general inflation or other factors—will be considered.

To Whom it May Concern:

In accordance with the advertisement of the Northeast/Merrimack Valley Chemical Consortium inviting proposals for furnishing Chemicals in conformity with the attached specifications, I/we hereby certify that I am/we are, the only person (s) interested in this proposal as principal(s); that it is made without collusion with any person, firm, or corporation, that an examination has been made of the specifications; and that the equipment/materials will be delivered within the time specified, at the following prices.
